

Eric Prewitt

BAND STORY

"Hello, and welcome to my music page. A little background about me -- I love creating -- whether it's a song, building something with my hands, or gardening. I love hearing or looking at a finished product and remembering what it took to get there. I bet God feels the same way about His creation and people. So really I'm just tapping into the divine when I create. Every Sunday I am the worship leader at Oak Bridge Community Church in St. Louis and part of the band/ministry "Approaching Grace." We also play out occasionally at coffee houses and conferences. Good times! We are currently "in the studio" recording a worship cover tunes CD. In addition, we're starting to write and record original worship music....this is very exciting -- I'll keep you posted. Some of the music posted on this site is original and was written with a good friend of mine, Paul Mueller, in a band called "Work in Progress." Our self-titled CD was featured on a St. Louis local radio station (Y98FM) a couple of years ago as well as some other local radio stations. I'm married to the wonderful Dianne and am the proud papa of 3 children -- Callie, Sam, and Joey. Well, thanks for stopping by and I hope you enjoy my music. "
