

Bassman4Jesus

BAND STORY

"

I have played music all my life. Born and raised in North Carolina, I am influenced by many styles of music..from rock to country, folk and bluegrass, some blues and soul too. Started singing in our church children's choir, into youth choir, etc.. Trained as a drummer and played percussion in both middle, high school and college band. Formed my own rock band at 16 from a group of friends and HS bandmates. Played lead guitar and sang lead vocal, but I wasn't very good on guitar, so we got a GOOD lead guitarist and I fronted the band on lead vocal until we all left to go to college. After college I got married, joined a new church, and got back into music. I took up bass guitar (to go along with percussion) as I love to play instruments that "sing" even more than playing drums.

Moved to O'Fallon MO in 1999. I have sang and played bass (plus drums when needed) with praise bands for many years. Currently I lead the praise band at Open Hearts Church in Wright City MO. My wife Tammy is senior Pastor there, appointed in July of 2009. We utilize a blended, family worship style with contemporary christian music, and an occasional hymn with modern touches. Our mission is winning more souls for Jesus and His Kingdom! My hope is for the core of this group to serve the local church, plus grow and develop our music with original compositions, and share this with the community. We welcome talented musicians who would be interested in serving.

Most importantly I am a saved
