

Morning Vision

BAND STORY

"A unique and imaginative approach in modern music brings excitement back to the stage! Morning Visions' extraordinary, diverse and distinctive sound rips free of the mainstream, providing a sensational and rousing audio and visual experience. This is truly dynamic, spirited, spontaneous and high energy entertainment, not just another "act" or show. Adding even more flair is Morning Visions' love of new and unusual instruments from around the world. You have to hear it to believe it! Beyond just a show, Morning Vision actively promotes and strongly encourages audience interaction and participation. The varied musical background of our talented and professional musicians breathes true entrepreneurialism into the most original music you will ever hear. Morning Visions' members' collaborative songwriting is truly inspirational and artistic in every sense of the word. Soul searching lyrics, powerfully melodic and breathtaking vocals, and emotionally stirring, toe tapping compositions combine to ignite a "complete" musical experience for the audience. Morning Vision's roots emanate from the mind of Blue Tapp Scheffer. Heavyhearted over the dissolution of her previous band in 2003, Blue dreamed of bringing together a group of musicians with a unified new "vision" to use unique original music to spread a positive message of hope to the local St. Louis music scene. Two years and a lot of stlmusic.com ads later Blue and her husband, Craig, who is also in the band, have assembled a group of some of the most innovative musicians and writers in St. Louis to create Morning Vision..."
