BAND STORY

"We are a group of five guys who got together in the fall of 2000 for one reason, to play metal music like it was made to be played and put out a good positive message while doing it. We hail from central Illinois in the East Peoria / Pekin area and are expanding our gig touring into surrounding states. Our music is a combo of old school metal with dueling leads to the new wave Euro metal that incorporates melodic phrases in it. So if your into a head-banging good time with solid music that will have you thinking about it days after the show come check us out at a location near you soon."
