

The Broken Brothers Band

BAND STORY

"The Broken Brothers Band is a St Louis Missouri based music ministry that feels the need to reach rather than preach. We use our music, which is a blend of 70's era rock, blues, and R&B, to bring the message of Christ to people who may or may not know they need Him. Our music is not only a gift we received from God, but a tool to reach those who normally tune out when the words "Christian Music" are heard. We are seasoned musicians who have lived lives we are not proud of but know that God allowed us to live that life as an example of how He can love even the worst of us. Our ministry has a few goals. 1. To show that Christian music is not always boring. We do like to have fun and enjoy great music just like everyone else. Our God given gift of musicianship is our "doorway" to sharing the message of Christ. 2. To show that we understand many of your frustrations, problems and situations. Not everyone was brought up in a church, we are no exception. We have lived that worldly life and understand what comes with that and want to show others that their past can be washed clean by the grace and love of Jesus; We are living examples. 3. Our music is typically aimed at the 30 and up age range. There are plenty of groups that reach younger ages, and that is fabulous, but we are geared at reaching those folks who have had life experiences and think that they are beyond saving. 4. To promote and help grow the St Louis Christian music community and fellowship between local Christian musicians, events, and venues. "

So much going on.. God is GOOD!

What a spirit-filled night we had at Ascending Glory on

What a spirit filled night we had at Ascending Glory on August 24!

First off, thanks to Adam for recommending us, Greg and his crew from Sonlight Productions for providing exceptional sound and lighting, and John, Vickie and everyone else (I forget the guy who made the food but one word sums it up: WOW...thanks brother for providing some seriously delicious grub!) and to all the patrons who showed up and supported not only our group, but Ascending Glory and representing God's people.

God has of late been moving in our ministry in a mighty way. Sunday night was no exception. I have for sometime know had vision of putting together a evangelistic event to reach people in the St Louis area; specifically those who have had enough of what the world offers them and are seeking more, those who think they are "too rough around the edges" and that God wouldn't bother with them, those who are seeking Christ and don't even know it! And of course our biker brothers who know and don't know Christ. This event would feature music, motorcycles, ministering and support of local ministries and outreach groups.

Well, like I said, God has been moving in our ministry lately, and He put us at Ascending Glory on Sunday so that I could convey my vision to John Vitale who in turn was very receptive and presented it to the Stratford Inn and basically, with logistics still to be worked out, they said lets make it happen!

So the planning stages are being put together, groups will be contacted, bands asked to use their God given talents and time, and ministries asked to participate. The goal is to have a first annual event in place by the first or second week of October OF THIS YEAR! That's a lot of work, but I think God will provide as He already has and people will step up and join me in putting this event together.

God is Working!

Our next show, Sunday August 24th, is at Ascending Glory in Fenton (at the Stratford Inn) and is open to the public and FREE. We know God has moved BIG TIME at these events and we are hoping this coming Sunday is no exception. If you can be there we would GREATLY appreciate it.

We have been diligently working on a demo CD and we are so close to having one ready that we can taste it!

With a full band now, the talents that we have and God's blessings we are really moving forward. We are slowly starting to get out and present our music to the public and we are hoping that once the demo is finished that people will be knocking down our door to have us perform and spread God's Word.

We will also be starting work on a debut CD once the demo is finished. We are hoping that by years end this will be completed. We are going to self record and produce this CD but believe we will have a polished product when we are finished. Both Dave's have experience in recording so this will help us tremendously.
