

The Travis Lee Band

BAND STORY

"In a society where compromise and conformity seems to be not only a trend but a norm, 28 year old Travis Lee and a band of multi talented instrumentalist from St. Louis are bent on living set apart-in hopes of showing youth and adults that Christianity demands a radical walk of faith. While some bands focus on music as merely an art form, the Travis Lee Band is ministry minded challenging their audience through bold words and creative songs to seek a deeper and more real relationship with Jesus Christ. :D "
