BAND STORY

"

christian experimental. rock/hiphop/electronic/praise/worship mix!

I play drums and perc and mess around with reasons4. I have TONS of raps/poetry and praise and worship songs.....i don't sing or rap though :)

I really want to get together with other christian musicians who think OUT OF THE BOX! I don't care if you have a harmonica and violin and want to create a hip hop song with it while someone is singing bluegrass in the background! lol. just as long as we aren't "boxed" in.

i have one guy that is a poet/rapper here in st.louis that is on board...it would be great if this could turn out to become a band eventually. all and i do mean all instruments are welcome.

turntables/violin/dulcimer/xylophone/loops/keyboard/djembe/harmonica/....whatever as long as we get creative and are able to exault Christ in worship.

influences....david crowder/family force 5/flame/lecræe/lampmode recordings/humblebeast/propaganda "xperiment"(producer from humble beast) chris tomlin/evanescence...etc...

Also, we are looking for a girl singer with an "evanescence...ish" sound.

one last thing.....a real turntablist(producer) would be awesome..

Can't wait to see where this goes. should be fun. Christ always and forever

My heart mind and soul have been rewired to proclaim Jesus.

I LOVE MUSIC! please contact me if you would like to do some sort of mixtape or worship event or something. I am looking for artists to help out on a mixtape called THA URGENCY MIXTAPE VOL1. Check here for more details.
